

Rother Riverfly Meet Up

We would like to invite you to our Riverfly meet up on Saturday the 28th of September 2019 at Coultershaw Heritage and Beam Pump meeting rooms from 10am—3pm.

This event will provide an opportunity to meet with Arun and Rother Rivers Trust and South Downs National Park staff and other Riverfly surveyors working along the Rother. We will also:

- Provide a refresher of the Riverfly training including identification of invertebrates and survey methods on the river.
- Highlight Health and Safety issues to identify when surveys could be dangerous.
- Outline aspects of river ecology—particularly how to spot spawning of fish and when to avoid disturbance.
- Take orders for replacements or new items of kit.
- Update on how Riverfly data are being used and what we hope to achieve this year.
- Provide guidance around entering data onto the system and also how and when to flag issues.
- Help identify and allocate sites for new surveyors.

Lunch and refreshments will be available throughout the day.

Please confirm your place using email or mobile number below, and how many of you will be attending (some of you survey with spouses or others who are of course welcome!). If you know of others that would like to become a surveyor please let me know so we can extend this invite to them too.

Many thanks for your support and input to date. We hope that 2019 is going to be our best year yet!

Best wishes,

Sandra Manning-Jones
